

# CANADA'S LEADER in Commercial Trailer Solutions

*Thank you Essential Workers!*

At TIP, we care about the safety of Truck Drivers, Daily Commuters and Pedestrians. Before hitting the road, perform a circle check to ensure your truck/trailer is in proper working condition. When on the road, be aware of your surroundings and check your blind spots.

## Blind Spot Awareness

Be aware of obstructed view-points of trucks, trailers, and large vehicles on the road.

Check blind spots thoroughly, adjust mirrors, keep windows clean, check surroundings, use turn signals, and assume others can't see you.

## SERVICES

Full / Preventative Service and Emergency Road Service. Customer centres & mobile services equipped with authorized inspection stations, repairs and service for your transport trailers.
