

Latest Release Update, April 2023

Fix(es)

The following known bugs are fixed for this release:

- **Sorting on Unit On Lease:** Previously, when users sort the On Hire and Contract End dates column in Units On Lease table, the data was not sorted based on the actual date. Now, the sorting works as expected.
- **Team Members in Profile Setting:** Previously, the team member section shows all team members who do not belong to the organization that user selected. Now, it only shows the team members who belong to the organization.

Improvement(s)

The following functionalities/features are improved for this release:

- **FleetConnected button:** We have made the FleetConnected text permanently visible under the FleetConnected icon to provide better visibility.
- **TIP Vehicle Inspection App**
 - **Simplified the user workflows:** We removed the Group, SubGroup, and Activity screens when users report a damage.
 - **Redesign inspection report format:** We have redesigned the inspection pdf document to make the picture larger and structure clearer based on the user feedback.
 - **Show comment in view damage list screen:** We made the comments that entered by user in Damage screen visible in View Damage screen.
 - **Add search placeholder in Search Asset box:** We have added placeholder so that users know which parameters that they can use to search an asset.
 - **Add language setting in all screens:** We have added the language setting in all screens.

New feature(s)

The following functionalities/features are new features for this release:

- **My TIP Contacts for Account and Service Delivery Managers:** This feature allows TIP users to manage contacts per root organization level in FleetAdmin and make them visible for our customer users in FleetRadar™. This ensures customer users will be able to easily find their relevant and most up-to-date contacts.

For FleetRadar™ user manual, please go Help Section under FleetRadar™ application.

For TIP Vehicle Inspection user manual and other materials (including quick guides), please go to [TIP Insight Media Library](#).
